The new **Welcome Building** on the site of the demolished Congress Suite, conveniently positioned between the Congress Theatre and Winter Garden, is now complete and operational. This innovative design links all levels of the new facilities to the established spaces. Two large exhibition halls on semi-basement level replace the demolished Devonshire Park Halls footprint (located the farthest side of the Winter Garden to provide extended Tennis Court provision). A sweeping plaza draws visitors to the conference reception and box office areas behind which lies a café overlooking the famous Tennis Grounds, plus two additional seminar/hospitality spaces and balconies on the top floor.

Renovation is also complete to the Grade II* listed **Congress Theatre**. This extensive upgrade benefits complete replacement of its 1655 seated auditorium, refurbishment of dressing rooms, new ventilation and heating, improved technical and acoustic provisions as well as restoring original internal features to foyers and bars. The accessibility across all levels is vastly improved thanks to its **connectivity to the Welcome Building**.

Supporting this operational offer are the renovated facilities within the **Devonshire Park Theatre**, **International Lawn Tennis Centre** and **newly built Locker Room Venue**. Each provide a mix of unique, multi-use spaces supported by AV and on-site catering.
